# Speculums and Accessories

## ED2010 Millennium Speculum with Biothene Straps

Premium quality drop forged Equine dental speculum has small but deep ratchet settings to ensure a comfortable fit on each individual horse. A durable spring lock, easy to operate mechanism is fitted in these speculums. The release clips provide a smooth motion to ease in the opening and closing of the speculum. Supplied with hardwearing biothene straps that are waterproof and easy to clean. This horse dental gag comes with "spreader bar effect" that keeps the sides of the speculum bent outwards and do not collapse into the horse's cheek during the dental procedures.

## ED2011 SE Speculum with Biothene Straps

A drop forged speculum with six ratchet settings for multiple opening options and the extra depth of these ratchets provides extra security to avoid unexpected closing of the speculum whilst on the horse's mouth. Comes with biothene straps that are flexible and easy to clean and use. Available with normal or extra wide bite plates. Due to the standard fitting of our speculums these can be used with normal bite plates or extra wide bite plates, therefore you have an option to get any type of bite plates with your speculum.

## ED2012 Pony Speculum with Biothene Straps

This dental speculum is ideal for small horses and ponies. Their smaller size enables technicians to work as normal but with more secure fitting that does not swamp smaller heads. Supplied with hard wearing biothene straps which are easy to clean and use. This speculum comes with a "spreader bar effect" that keeps the sides of the speculum bent outwards and do not collapse into horse's cheek during the dental procedures.

## ED2019 Biothene Straps

Biothene straps are hard wearing, flexible, and easy to use. Stainless steel buckles and accessories are used in making of these straps. Available for all types of speculums.

## Rubber Fitted Extra wide Bite Plates

Special rubber inlay provides protection against the chipping and slippage of the incisors. The extra-wide arms keep the speculum away from the equine's cheek. 5mm rubber for extended surface life.

# Equine Dentistry Picks & Probes

ED2045 Dental Explorer

ED2046 Dental Scaler

ED2047 Sickle Scaler

ED2048 Equine Needle Pick

ED2049 Gracey Curvette Right

ED2050 Gracey Curvette Left

ED2051 Banded Probe

## ED2052 Equine Periodontal Instrument Set

A complete set for equine periodontal work.

The set includes;

- Banded periodontal probe
- Explorer fine point
- Sickle scaler large hook and small hook
- Equine needle pick
- Equine dental mirror turned head
- Periodontal Forceps 41 cm

**Supplied in a sturdy zip up wallet.**

# Elevator & Pick Sets

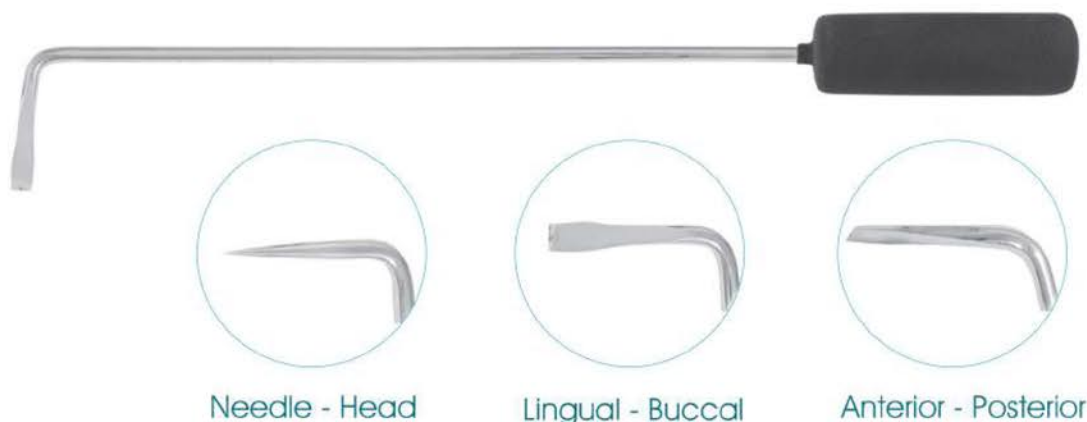

## ED2060 Ramzan's Periodontal Elevator Set

These elevators permit the clinician to break down periodontal attachments of both intact and fractured cheek teeth prior to the use of forceps during the extraction process. The pistol grips allow them to be employed with some force to prise dental tissue free from the alveolar wall and insertion to a considerable depth within the socket facilitates complete extraction of teeth with even long reserve crowns. The choice of straight, angled and curved blades gives the oral surgeon flexibility to deal with teeth throughout the mouth. Comes as a set of five elevators in a water proof wallet.

## ED2055 Set of Long Head Dental Picks

Multifunctional Picks are very useful for elevating tissues around molar teeth.

### ED2053 Multi Pick Set in Zip UP Wallet

Pick set includes four T handles with various angles and one ergonomic round handle.

The sets includes:

- 13 different Interchangeable Heads
- 3 Curette Spoon Heads
- 3 Alveolar Loops
- 3 Elevators T Head
- 4 Round Head Elevators – XS, S, M & L

# Teeth Elevator Sets

**ED2025 Elevator Set of Six**

Durable stainless steel kit with seven different elevators to aid extraction of wolf teeth, fragments and incisors. Comes in sturdy zip up wallet.

**ED2033 Multi Head Elevator Set**

The set includes 6mm wide long stainless steel flat elevators & 10cm wide stubby ergonomic handle elevators. Available in Straight, Curve and Concave angles. Comes in a sturdy zip-up wallet.

Stainless steel wolf tooth elevator kit with ergonomic non slippery handle. Comes with four different replacement 'V' shaped heads which partially surround the tooth to help in elevation or loosening of the tooth. This set also includes 2 extensions (straight and offset) for extending the length of the handle and providing more angles to access required segments of the teeth. The complete burgess set comes with an addition of wolf tooth forceps and a straight ergonomic handle elevator.

**ED2030 Basic Burgess Set**

**ED2031 Complete Burgess Set**

**ED2034 Interchangeable Head Elevator Set**

Slimline wolf tooth extraction kit with four interchangeable heads (4mm & 5mm) curved and straight to fit onto a handle. Solid steel cap end handle to allow the usage of mallet striking.

**ED2034BD Four Circular Head Elevator Kit with Handle**

Roundhead elevator set with extended length and four different size elevator fittings. Offset shaft handle for convenient access to various teeth segments.

# Teeth Elevators & Accessories

## ED2026 Elevator Set of 2

Two piece elevator kit includes a straight and a curved elevator for extraction of wolf teeth, fragments and incisors.

## Angled Equine Dentistry Elevators

These elevators have an ergonomic brass handle and stainless steel blade to provide the perfect angles for removing hard to reach areas of wolf teeth. Ideal for use on off side and near side of the horse's arcade.

-ED2027 Round Head Elevator

-ED2028 Flat Head Elevator

Flat

Round

## ED2176 Scoop Head Elevators

Specially designed 3mm & 6mm curette elevators to aid the extraction of various fragments and deciduous teeth. Manufactured from high quality Stainless Steel.

## ED2177 Chisel 13cm

Extended length chisel with solid striking tail. Specially designed for equine dentistry procedures and manufactured from high quality Stainless Steel.

## ED2029 Dental Mallet Heavy Duty

For striking chisels and osteotomies. The hollow handle with a lead-filled head minimises shock and vibration insuring a smooth, even striking force on the chisel or elevators.

## ED2029RGR Dental Mallet Neoprene

Heavy duty mallet with lead filled head weighs 1100g. Neoprene coated ergonomic for and non-slippery and minimise the vibrations whilst striking the chisels.

## SD6189 Teflon Head Mallet

Stainless steel mallet with removable teflon head. Head size 18.5cm. Weighted head for precise striking of chisels and elevators.

# Equine Dentistry Lights

***The best Spec Light Tried & Tested by Professionals***

## ED20HL Head Light Dentistry Veterinary Medical

- LED 5W (white light), Brightness 10000lux-28000lux
- Adjustable light focus i.e wide or narrow - Focus circumference min 15mm - 70mm max
- Adjustable axis for various torch positions
- Adjustable head straps for comfort fit
- Lightweight design
- Wireless power source for practitioner's convenience
- Color temperature: 5000-6000K
- Spot size: Max D= 70mm Min D= 15mm
- Lampworking life: 50,000 hours
- Battery: 3.7V Lithium Battery Rechargeable
- Battery run time: 8 hours
- Battery charging time: 3 hours
- Input voltage: 100-240VAC

## ED2014 Equine Dentistry Magnetic Speculum Light

- Aluminium casing for extra durability & Improved Spiral cable
- Strong magnet fitted to attach to your speculum
- Bright LED light 400 Lumens and 6500K colour temperature equivalent to Day Light
- Slim design speclite, thickness 5.5mm only. Reduced obstruction during examination due to more compact casing design
- Rechargeable battery with running time of up to 4 hours
- Magnet fitted battery pouch for convenient attachment to your speculum

***Slimline Design for Reduced Obstruction***

# Equine Dentistry Cameras

## EDCAM Equine Dental Endoscope Camera

- Produces high-resolution images and videos
- Data easily transferred over via Micro SD card
- 32GB Micro SD memory capacity
- Live video capability via camera's screen and image capture feature
- Comes with two interchangeable shafts (Straight and flexible shaft)
- Shafts capable of 360° surround viewing angles
- Three Light setting for perfect aperture
- Lightweight one-handed operation
- Adjustable viewing angles 360°
- Rechargeable battery operated, charger supplied in the set
- Supplied in a portable carry case

### EDCAMWLNW Equine Dentistry Endoscope Wireless Camera

- Picture Resolution: 1280 x 720 HQ, Video Resolution: 1920 x 1080 HQ
- The handheld camera allows one-touch picture and video capturing
- Live stream on your devices
- Store images and videos directly onto your device
- On/off, video record, White balance, picture
- Rechargeable, 4 hours battery life

### Rigid Endoscope

- 70° Field of View, a perfect angle for the examination of horses dental arcade
- Length 55cm, excellent image quality
- 15mm Outer Diameter Solid Tube, specially designed for large animal dental examination
- The working tube is fully enclosed in thick-walled, strong high-quality stainless steel for protection
- Supplied with a high powered LED light source

# Dentistry Forceps

**ED2075 19" Three Prong Root Molar Forceps Off Side**  
Premium graded stainless steel forceps designed for lower left molars and upper right molars.

**ED2076 19" Three Prong Root Molar Forceps On Side**  
Stainless steel forceps designed for lower right molars and upper left molars.

**ED2077 19" Universal Four Root Molar Forceps**  
High quality stainless steel four prong molar extractor for removing teeth that are irregular or geriatric or have a short crown. Can also aid in extraction of a fractured tooth.

**ED2079 20" Serrated Jaw Forceps with Screw Fulcrum**  
The most popular Serrated Jaw Molar forceps with a screw type removable fulcrum.

**ED2081 20" Long Nose Fragment Forceps**  
Long molar root and fragment extractor with long head and grooved jaws to securely grasp roots and fragments.

Straight Jaws

Inclined Split Jaws

**ED2082 19" Molar Spreader Forceps**  
**ED2082SJ 19" Molar Spreader Forceps Split Jaws**

High quality stainless steel separator/spreader for loosening teeth prior to extraction. Available in two different Jaw Styles.

**ED2037 Compound Rongeurs**  
Stainless steel multi-function rongeurs for removing wolf teeth fragments, wolf teeth or cap silvers. Also very helpful for removal of plaque from canine teeth. Spring placement to aid the opening and closing mechanism.

Multi-buy offer

**ED2099 Set of 4 Molar Forceps**

Set of four, very useful forceps for separation and extraction of molars and root fragments. Save 10% on normal prices if bought as a set.

# Dentistry Forceps

**ED2087 12" Four Prong Compound Cap**  
Forceps with four prongs are spring operated and very useful for removing caps and other deciduous teeth.

**ED2088 14.5" Small Nose Fragment**  
Specially designed small nose fragment forceps, excellent for removing fragments left over after extraction.

**ED2098 16" Long Nose Fragment Forceps**  
Double jointed long nose fragment forceps with grooved jaws, very useful for extracting fragments in hard to reach areas.

**ED2092 Equine Periodontal Forceps**  
41cm long stainless steel forceps with an ability to remove forage that accumulates in periodontal pockets and valve diastema between equine cheek teeth.

**ED2083ND Long Nose Fragment Forceps**  
90° serrated jaws forceps for precise access to fragments. Length 16". Longnose forceps for root fragment extraction.

**ED2080NW Hewson Molar and Caps Forceps**  
16" Improved serrated jaws and angle to extract the deciduous teeth. Improved handles to provide a secure grip during the extraction process.

**ED2086 Universal Cap Forceps 15"**  
Universal high-quality stainless steel cap forceps for removing retained deciduous teeth.

**ED2020 Equine Cheek Retractor**  
Stainless steel equine retractor can be used to extend the equine cheek away from the molars in order to inspect the arcades before and after work.

**ED2098 Dental Fulcrum**  
Standard dental fulcrum with two different brass heads. For use with molar extraction equipment.

# Wolf Teeth Extraction Forceps

**ED6147 6" Root Tip Forceps**

Spring operated 15cm root forceps is cupped like a bone rongeur for convenient extraction of root fragments. Their jaws are fine, serrated beaks and are bent for easy access and gripping of root fragments.

**ED2038 7" Offset Wolf/Incisor**

Premium quality 7" stainless steel forceps for the removing wolf teeth, incisor caps and fragments. Cross hatched grip handles to provide a firm handhold that prevents slippage whilst in use.

**ED2039 7" Curved Wolf/Incisor**

Multipurpose 7" stainless steel forceps for wolf tooth incisor caps and fragments removal. Very helpful in removing plaque from lower canines. Cross hatched grip handles for non-slippery grip when wet.

**ED2040 7" Wolf Incisor Spreader**

Specially designed 7" stainless steel forceps for spreading incisors prior to extraction. Cross hatched handles for non-slippery grip when wet.

**ED2041ND Turned Head 6"**

The 6" turned head forceps has angled jaws, which is very useful for extracting premolar teeth. Also suitable for extracting fragments, incisors, and other wolf teeth extractions.

**ED2043 Narrow Jaw Forceps 7.5"**

Multi-functional narrow jaw extraction forceps are ideal for extracting tiny fragments caps and deciduous teeth.

**ED2044 Curved Small Forceps 7"**

Handy 7" small curved forceps are ideal for multiple dental procedures including extraction of fragments, incisors, wolf teeth and caps.

**ED2044CD Right Angle Small 7.5"**

Multi-functional forceps are universal and can be used for extraction of fragments, incisors, Wolf teeth and caps. Made with surgical graded stainless steel.

**ED2042C Set of 4 Handy Forceps**

Suitable for extraction of fragments, incisors, wolf teeth, caps and deciduous teeth. Cross-hatched non-slippery handle for a secure grip when wet.

1 x Turned Head Beak Forceps 6"

1 x Narrow Jaw Forceps 7.5"

1 x Curved Small Forceps 7"

1 x Right Angle Forceps Small 7.5"

Supplied in a sturdy zip walled that stores and holds all 4 forceps neatly, handy for storage and transportation.

**ED2042 - Set of 7" Forceps**

Set Includes:

7" Curved Wolf/Incisor Tooth Forceps

7" Offset Wolf/Incisor Tooth Forceps

7" Wolf Incisor Tooth Spreader Forceps.

This set comes in a sturdy zip up wallet.

# Equine Dentistry Equipment & Accessories

**ED2065SH 40mm Dental Mirror**  
40mm stainless steel dental mirror with 25° turned head.

**ED2065 50mm Dental Mirror**  
50mm stainless steel dental mirror with 25° turned head.

**EDMirrorMH Dental Mirror Multi-Head**  
20mm and 30mm diameter head. Easy to change over with the help of a screw tightening mechanism.

**ED2067 Drenching Syringe 400ML**  
Two handed operation to flush/clean out equine mouth.

**ED2068 Drenching Syringe 300ML**  
300ML syringe - one handed pump operated to clean/flush out equine mouth.

**ED2072 Bucket Blade Savers**  
High quality stainless steel blade saver with Teflon walls fitted internally. Comes with flexible hook to mount to the buckets.

**ED2069 Bucket with Brush 15L**  
Premium quality stainless steel bucket with brush and a capacity of more than 15 litres. Plastic handle and rubber inner base to keep noise levels to a minimum around nervous horses.

**ED2070 Bucket with Brush 12L**  
Stainless steel bucket with brush, capacity of 12 litres. Rubber inner base to keep noise levels to a minimum around nervous horses.

A two-part carbonless form for equine dental practitioners, featuring a diagram of a horse's head and a table for recording dental findings.

**ED2073 Equine Dental Chart**  
A two part carbonless form for equine dental practitioners. Sold in pads of 50 sheets.

# Float Handles

## Classic Round Shaft Floats

These floats are made from highly polished drop forged stainless steel. Assembled with comfortable and ergonomic non slippery dotted rubber handle.

ED2140	Premolar & Molar Float Angled Head SH1 55cm	80mm
ED2141	Premolar Float With Angled Head SH2 44cm	80mm
ED2142	Offset Shaft Float For Lower Arcade SH3 44cm	56mm
ED2143	Straight Shaft Lingual And Buccal Float SH4 44cm	80mm
ED2144	Straight Shaft Float For Cheek Teeth SH5 55cm	80mm

Buy individually OR full kit of six floats with corresponding blades.

## Classic Slimline Floats

These floats are made from premium quality stainless steel. Elegantly designed slim line range that accepts 50mm and 80mm stick on blades.

ED2147	Premolar Float 25° Angled No21 35cm	50mm
ED2148	Premolar Float 17° Angled No22 41cm	50mm
ED2149	Premolar/Molar Float 10° Angled No23 50cm	80mm
ED2150	Straight Lingual And Buccal Float No24 55cm	80mm
ED2151	Straight Lingual And Buccal Float No26 55cm	50mm

Buy individually OR full kit of six floats with corresponding blades.

## Classic Slimline Miniature Pony Floats

Ideal for small horses and routine dentistry work. Designed by using an ergonomic rubber dotted handle.

ED2153	Premolar Float With 20° Angle SLP1 35cm	50mm
ED2154	Straight Lingual And Buccal Float SLP2 42cm	50mm
ED2155	Lower Arcade Float With 5° Angle SLP3 42cm	50mm
ED2156	Upturned Back Molar Float 15° Angled SLP4 45cm	50mm

Buy individually OR full kit of six floats with corresponding blades.

## Roll Up Wallet for Dental Floats

Easy to clean roll up wallets are very useful to keep your floats and blades organised. Convenient handle for easy carrying. Available in two sizes. Small Bag (3 float pockets) and Large Bag (5 float pockets).

# Equine Dental Kits

## ED2145B Basic Equine Dental Float Kit

### Kit includes:

Float SH1 - Premolar and Molar float 13° angle  
Float SH2 - Premolar float with 15° angle  
Float 26 - Upturned 15°, back molar float  
3 x Corresponding Tungsten Carbide Blades  
1 x Water proof wallet

## ED2168 Bronze Package Basic Equine Dental Kit

### Kit includes:

SE Speculum Speculum with Biothene Straps  
Float SH1 - Premolar and Molar float 13° angle  
Float SH2 - Premolar float with 15° angle  
Float 26 - Upturned 15°, back molar float  
3 x Corresponding Tungsten Carbide Blades  
1 x Water proof wallet for Floats and Blades

## ED2169 Silver Package Equine Dental Kit

### Kit includes:

SE Speculum Speculum with Biothene Straps  
Float SH1 - Premolar and Molar float 13° angle  
Float SH2 - Premolar float with 15° angle  
Float 26 - Upturned 15°, back molar float  
3 x Corresponding Tungsten Carbide Blades  
1 x Water proof wallet for Floats and Blades  
1 x 400ml Dental Syringe  
1 x Small S File Diamond Coated  
1 x 50mm Dental Mirror

## ED2170 Gold Package Advanced Equine Dental kit

### Kit includes:

SE Speculum Speculum with Biothene Straps  
Float SH1 - Premolar and Molar float 13° angle  
Float SH2 - Premolar float with 15° angle  
Float 26 - Upturned 15°, back molar float  
3 x Corresponding Tungsten Carbide Blades  
Premium Stainless Steel bucket with brush  
1 x Water proof wallet for Floats and Blades  
1 x 400ml Dental Syringe  
1 x Small S File Diamond Coated  
1 x 50mm Dental Mirror  
Head light with elastic head band OR magnetic spec light (optional)

# Power Tool Equipment and Accessories

## Cordless Power Float Kit

### Kit Includes:

- 1 x Rotatory disc float with diamond disc fitted
- 1 x Dewalt cordless motor with 2 batteries
- 1 x Battery Charger
- 1 x Grease gun with a grease tube
- 1 x Wrench to service disc
- 1 x Carry case

## Premium Power Float Package

### Kit Includes:

- 1 x Rotatory disc long float with diamond disc
- 1 x Rotatory disc short float with diamond disc
- 1 x Dewalt cordless motor with 2 batteries
- 1 x Battery Charger
- 1 x Apple Core Burr
- 1 x Grease gun with grease tube
- 1 x Wrench to service disc
- 1 x Wire brush
- 1 x Equine Dental Spec Light
- 1 x Carry case

**Diamond Float Disc**

Available in two different sizes  
-1" Diamond Float Disc  
-1 1/4" Diamond Float Disc

**Diastema Carbide Burr Set**

Tapered, Conical, Rectangular  
and Slim Carbide Burs  
1/4-28 Treads

**Apple Core Burrs**

Available in two different  
Shapes  
-1/2" Diamond Apple Core  
-5/8" Diamond Apple Ball Nose

**Diamond Buccal Burr**

1-1/8" Diamond Buccal Burr fits  
all handpieces with 1/4-28  
threads

**Grease Gun**

**Haynes Lubri Film**

**Disc Pliers**

**Wire Brush**

# Dearson Motorised System Packages

## Dearson 8000 XT Base Unit

- 8000XT Controller
- 36v Battery & Charger
- Available with 1.2m or 1.6m Flexible Cable
- Belt & Pouches
- Strong Moulded Case
- Grease Gun
- 30ml tube of Freedom grease
- User Guide
- All Tools & Accessories

**The 8000XT System comes ready to go.**

## Dearson 8000 XT Base Unit with Uni Disc

- 8000 XT Base System ( Controller and Battery pack)
- 20" uni disc handpiece with diamond disc
- Belt and Braces
- All tools and grease necessary for maintenance of the Dearson Kit
- Available in 1.2m and 1.6m Cables

## Dearson 8000 XT Base Unit with Uni Disc & Applecore handpieces

- 8000 XT Base System ( Controller and Battery pack)
- 20" uni disc handpiece with diamond disc
- 20" applecore handpiece with 1/2" applecore burr Belt and Braces
- All tools and grease necessary for maintenance of the Dearson Kit
- Available in 1.2m and 1.6m Cables

# Tungsten Carbide Blades and Accessories

## Rectangular Blades with Backing

These blades will fit into standard floats and are mounted on aluminium plates. These blades are versatile and are suitable for all sort of routine dentistry work. Available in fine, medium or coarse grade. Available in three different lengths 50mm, 56mm and 80mm. Also available in Titanium Nitride Coating which are more durable as compared to standard carbide blade.

ED2105	50mm Rectangular Blade with Backing
ED2105TNC	50mm Rectangular Blade with Backing Titanium Nitride Coated
ED2106	56mm Rectangular Blade with Backing
ED2107	80mm Rectangular Blade with Backing
ED2107TNC	80mm Rectangular Blade with Backing Titanium Nitride Coated
ED2108	80mm Rectangular Blade with Backing Re-Grindable

## Oval Blade with Rail

The 2 1/4 (56mm) oval blades with rail are designed to fit into all standard float handles. Mounted on an aluminium body it is designed to be lightweight and easy to use. This blade is ideal for use in M3 as well as Molar Rollers. Its rounded edges greatly reduce the risk of soft tissue damage.

ED2109	56mm Oval Blade with Backing
--------	------------------------------

## Oval Pocket Blades

Available in two sizes 1 1/4" and 2 1/4" oval blades with backings are mounted on aluminium body and can be attached to the floats with the help of screws supplied with these blades. Their rounded ends greatly reduce the risk of soft tissue damage. These medium blades are very aggressive and can remove a large amount of tooth growth. Available in lengths of 32mm and 56mm.

ED2110	32mm Oval Pocket Blade
ED2111	56mm Oval Pocket Blade

## 56mm Oval Stick on Blade

A super strong 3M VHB adhesive is attached with these blades to ensure the secure attachment to the floats. The round edges of these blades are also very helpful to reduce the risk of soft tissue damage.

ED2114	56mm Oval Stick On Blade
--------	--------------------------

## Stick On Blades Rectangular/Oval

Brilliant for removing large amount of teeth and known as slim line blades due to their reduced thickness. A super strong 3M VHB adhesive is attached with the blades to ensure the secure attachment to the floats. The round edges of these blades are also very helpful to reduce the risk of soft tissue damage. Available in 50mm, 56mm and 80mm sizes. 50mm and 80mm are also available in Titanium Nitride Coating which are more durable as compared to standard carbide blade.

ED2112	50mm Rectangular Stick On Blade
ED2112TNC	50mm Rectangular Stick On Blade Titanium Nitride Coated
ED2113	56mm Rectangular Stick On Blade
ED2115	80mm Rectangular Stick On Blade
ED2115TNC	80mm Rectangular Stick On Blade Titanium Nitride Coated

## Carbide Chip Blades

Our carbide chip blades are made from tungsten carbide grit. These blades will fit into all standard floats. Due to their less aggressive nature these blades are designed for finishing work. Available in lengths of 56mm and 80mm.

ED2120	50mm Rectangular Carbide Chip
ED2121	80mm Rectangular Carbide Chip

## Triangular Carbide Inserts

Triangular solid carbide Inserts offer 3 long lasting cutting surfaces. When one is worn out simply rotate around and use the other cutting edge. These inserts are used in conjunction with each other to create a solid cutting surface. Available in 3, 4, 7 or 8 grooves cut.

# Dentistry Files and Rasps

**ED2124 Diamond Chip Float**

These floats come with a combination of concave and curved ends. They are coated double sided on the curved ends and single sided on the concave end. Diamond gritted file is a fine graded surface float however carbide chipped file is a coarse surface float. Stainless steel file overall length is 12".

**ED2125 Tungsten Carbide Float**

**ED2126 Diamond Chip S Float Small**

Gritted diamond plate coating on both sides. It has medium and fine rasping profiles for standard filing and finishing work.

**ED2126CO Diamond Chip Float Coarse**

Coarse graded diamond coating on a straight surface is suitable for incisors realignment work and filing sharp points.

**ED2127 Handy Float**

Coated with fine carbide grit, it has a very sharp cutting profile which creates an excellent finish for standard filing and finishing work.

**ED2128 Pistol Grip Gledhill Lower**

Pistol handle grip floats are coated with tungsten carbide chips on a concave surface which creates a perfect rasping angle for finishing the teeth off. Available in upper and lower angles.

# Equine Dentistry Headstands

**ED2074AH Head Stand Flat Adjustable Cradle**

- Easy to assemble, dismantle and store
- Height Adjustment and Locking System
- Leather padded Head-rest
- Adjustable angle Head-rest from 0° - 30°
- Stainless steel base and frame for extra durability
- Adjustable height from 1 - 1.6m
- PVC washable cover included

**ED2074 Head Stand Curved Cradle**

- Risers with spring loaded adjusters
- Secure Bolt Lock Mechanism
- Leather Stitched Curved Head-rest
- Secure steel base
- Adjustable height from 1 - 1.6m
- Easily disassembled for compact storage
- PVC washable cover included

# Large Animal Instruments & Tools

**EQ2237 Sand's Castration Clamp 13"**

This Emasculator crush the spermatic cord by locking the back clip and keep on crushing unless the clip is being unlocked. Stainless steel castration tool is designed for bloodless castration.

**EQ2238 Serra's Emasculator 14"**

This tool has three actions: clamping, crushing and cutting. It draws the cord concentrically into the jaws, thus preventing slipping of the cord, as the jaws are closed on the spermatic cord it is gripped by the clamping part. Ratchets holds emasculator locked. Cutting and other functions are tested before supply.

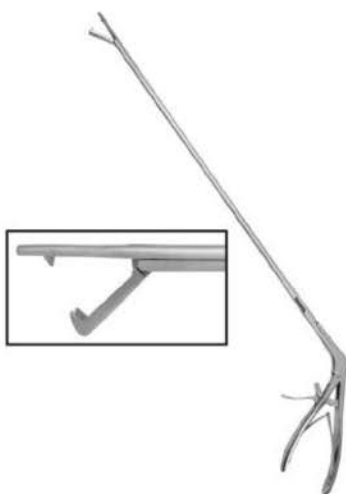

**EQ2240 Reimer's Emasculator 13"**

A very popular emasculator has a double crushing part. The cutting lever is operated separately. This allows extra time for crushing action and diminishes after bleeding. Back lock keeps on crushing without hand power unless unlocked while cutting can be done with a separate part attached to it. Cutting and other functions are tested before supply.

**EQ2241SM Equine Stomach Pump 17"**  
**EQ2241 Equine Stomach Pump 21"**

The Equine Stomach Pump, an excellently designed stainless steel stomach pump, available with or without tubing.

**5164 Large Animal Cervix Forceps 21"**

Smooth operation pistol handle with step locking ratchet mechanism and easy to release one click hook for ease of operation. Length 53cm.

**5163 Uterine Biopsy Punch 25"**

Lightweight Stainless Steel Biopsy Punch with a scissor grip and smooth, free running mechanism. Length 64cm.

## Sinus Horsley Trephine

Made from high-quality stainless steel, 23cm long. Available in four diameters.

5171 Horsley's Trephine 13mm/0.5" OD  
5172 Horsley's Trephine 19mm/0.75" OD

5173 Horsley's Trephine 25mm/1.0" OD  
5174 Horsley's Trephine 45mm/2.0" OD

**EQ5121 Large Vaginal Speculum**

Stainless Steel vaginal speculum for examination of a mare OR other large farm animal. Available in two sizes 27cm & 35cm.

# Farrier Hoof Kits

## EF2216 Polished Stainless Steel

## EF2216BLK Black Coated Stainless Steel

The products included in the package are hoof rasp with wooden handle, farrier hammer, standard hoof knife, clinch cutter, hoof nipper, shoe puller and zip up wallet with storage pockets.

## EF2216CK Farrier Hoof Kit with Chaps

Chaps Bag that can be used as a storage wallet for your tools or as a Farrier Chaps. The bag has external pockets for hoof rasp, knives and other tools. Also comes with a convenient carrying handle.

# Hoof Nipper and Farrier Chaps

## EF2245 Chaps Nubuck Leather

Nubuck leather farrier chaps with knife pockets on both sides, magnet fitted to attach nails for convenience. Length 68cm. Waist straps are adjustable with the help of velcro fitted and buckle operated too for more adjustment options.

## EF2246 Farrier Chaps Suede Leather

Suede leather chap comes with farrier hoof knife pockets and a magnet to hold farrier nails. Overall length 68cm. Adjustable waist and thigh straps for fitting upto 46" waist.

## EF2246SYL Farrier Chaps Cordura

Cordura Material Farrier Chaps manufactured with 1/2 Oz Split leather on 1000D Cordura Fabric providing a durable yet lightweight apron. Overall length 68cm. Adjustable waist and thigh straps for fitting upto 46" waist. Built-in pockets serve as handy storage for knives etc.

## EF2220BTIP Foal Hoof Nipper TC Jaws 12"

Premium Quality Farrier Hoof Nippers with Neoprene Handle. Surgical Graded TC Tip Inserted Jaws for extra sharpness and durability.

## EF2220TIP Hoof Nipper 15" TC Jaws

Hoof Nippers with Neoprene Handle. Suitable for heavy duty trimming and well suited for draft horses. Improved Surgical Graded TC Tip Inserted Jaws for extra sharpness and durability.

## EF2220LRSL Hoof Nipper Spring Loaded 15"

Spring loaded nippers are ideal for one-handed use. When trimming horses or when you need to hold the leg in one hand and trim with another.

## EF2220SL Hoof Nipper Spring Loaded

These are ideal for one handed use. The internal spring is hidden away inside. Jaws include a Locking Nut for when not in use.

## EF2243 Multi Farrier Pull Off

Perform all major functions that a shoe puller, hammer and buffer would perform in shoe removal.

## EF2205 Hoof & Claw Cutter

Hoof cutter with compound joint action to assist easy hoof trimming. The leverage from the compound jaws contribute immensely for a clean and swift cut.
